Booked hire service licence

Under section 91J of the Transport Operations (Passenger Transport) Act, a booked hire service licence is a licence issued to a holder so they may provide booked hire services using the motor vehicle stated in the licence.

A service is a booked hire service if:

- it is a public passenger service
- the journey starts in Queensland
- it is provided by the hire (other than the hire on-the-spot) of a:
 - ◊ motor vehicle with up to 12 seats (including the driver)
 - ◊ a person to drive the vehicle
- it may be used by the public or a substantial part of the public.

Who can apply for a booked hire service licence?

A booked hire service licence can be held by individuals, a partnership, a company, an incorporated association or the trustee of a trust. A booked hire service licence cannot be held in a business or trading name. To have an associated business or trading name linked to the booked hire service licence, list the details of the business or trading name at question 3 (business or trading names will not be displayed on the licence).

Please read the below requirements relevant to the type of name the booked hire service licence will be held in:

Passenger transport history

Passenger transport history checks are part of the process of assessing the eligibility of a person to be issued a booked hire service licence. The Department of Transport and Main Roads (TMR) will be verifying the relevant history of all the people listed on the *Booked Hire Service Licence Application* (form F5189) before deciding the application.

For example, TMR may refuse to issue a booked hire service licence to an applicant if:

- a booked hire service licence, limousine licence or taxi service licence held by the applicant (or related body corporate) was cancelled or suspended within the previous year
- the applicant (or related body corporate) has, within the previous year, committed an offence against a provision of relevant transport legislation relating to—
 - ◊ providing a booked hire service or taxi service
 - ◊ using a motor vehicle to provide a booked hire service or taxi service.
- the chief executive is satisfied it is necessary in the public interest to do so.

If you intend to drive a booked hire vehicle to provide booked hire services you need to hold the appropriate category of Driver Authorisation. To find out the requirements to obtain a Driver Authorisation, or to apply, please refer to the *Driver Authorisation Application* (form F2978).

Vehicle requirements

For a vehicle to be stated in a booked hire service licence, it must:

- be a passenger vehicle, or a utility vehicle with a gross vehicle mass not exceeding 4.5t
- have not more than 12 seating positions, including the driver's position
- be the subject of a current Certificate of Inspection, unless exempt
- be registered in Queensland with the appropriate purpose of use
- have the appropriate Compulsory Third Party (CTP) insurance class for the vehicle.

Please note: Left hand drive vehicles, dual control vehicles (such as driver trainer vehicles), vehicles fitted with an alcohol interlock and vehicles with a Special Interest concession are prohibited from providing booked hire services and other public passenger services.

If, at any time, the vehicle does not comply with the above requirements, the booked hire service licence may be immediately suspended.

Chain of Responsibility

Obligations in relation to safety and fatigue management apply to all persons in the chain of responsibility for booked hire services. Persons in the chain of responsibility include operators, booked hire service licence holders, drivers, and registered operators of vehicles being used to provide the service.

Specific obligations related to safety also apply to the provision of booked hire services under relevant transport legislation. These include requirements relating to Driver Authorisation, vehicle maintenance and safety inspections.

TMR can audit any person in the chain of responsibility to assess a person's compliance with relevant transport legislation and verify information given to TMR.
