- Using the diagram as a guide, provide the following dimensions in metres correct to two decimal places (e.g. 12.54, 2.42).
- Write the number of tyres per axle in the wheel spaces.
- Letters in circles, for example (R), indicate distances that are to be calculated using formulas provided.

Diagram illustrating the chassis layout with dimensions L , W , and R . The diagram shows a side profile of a vehicle chassis with two wheels. The front wheel is labeled "Centre Front Axle" and the rear wheel is labeled "Rear Overhang Line". The distance between the centers of the two wheels is labeled W . The distance from the front wheel center to the rear wheel center is labeled L . The distance from the rear wheel center to the rear overhang line is labeled R .
